PROFILE

Vincenzo was born in Benevento, Italy. He graduated from Politecnico di Milano with a BA in Science of Architecture and achieved his MA degree from University of Birmingham, UK, specialising his professional practice in Urban Design and Community Studies. Vincenzo started his career collaborating with architecture and urban design practises in Italy and The UK, working on behalf of local institutions and private clients focusing on architecture, urban regeneration and city making. Vincenzo is constantly engaged in creative initiatives: he co-founded a multi-disciplinary collective together with other European professionals with multiple years experience in architecture, urban planning and environmental education, which aims at experimenting multidisciplinary educational projects on peculiar landscapes.
